CIRCULAR

Considering the ongoing emergency like situation in the country especially near the border areas of the State, the possibility of happening emergent/untoward situations cannot be ruled out. So, being medical professionals it is our prime responsibility to be well prepared/equipped for tackling any kind of exigent situation in the best interest of the humanity as well as for catering service to the nation. Thus, the competent authorities have decided that *“no Doctor/Medical Personnel working in GGSMC and Hospital shall proceed for any kind of leave and therefore all the medical specialists are requested to be available in hospital/campus/headquarter premises 24 x 7 until and unless the situation is improved.”*

It is further desired that the Principal as well as the Medical Superintendent of hospital shall inspect the hospital situation and be prepared with the necessary medical emergency kits and other logistics required for dealing with the mass casualties. They shall also ensure availability of extra beds available in hospital for handling the exigent situations.
