

### **Important notice.**

This is in reference to the queries raised by students after the BFUHS published the result of NEET 2017 for the candidates who had applied Punjab as their appearing state. Some candidates apprehend that they belong to state of Punjab but their name is not in the result published by university on its website . These Candidates had marked some other state while filling registration form of NEET. It is thus to clarify that candidates who are bona fide resident of Punjab can still apply to BFUHS through online portal in 85 percent category. By doing so they will still be maintaining their merit in 15 percent category of all India counselling.
