

BABA FARID UNIVERSITY OF HEALTH SCIENCES,
FARIDKOT.

ADVISORY

(regarding the recruitment test of Ward Attendants conducted on 14.11.2021)

Baba Farid University of Health Sciences, Faridkot has conducted the recruitment test of 800 posts of Ward Attendants in extremely fair and transparent manner on 14.11.2021 in all the Districts of Punjab.

At this stage, it has been learnt that some unscrupulous persons are trying to allure the candidates to effect the result by undue influence or money power.

It is informed to the all concerned that the evaluation of result would be done through High quality scanners, which are being called from Karnataka and we hope to bring out the result by the beginning of next week because of high number of participating candidates.

Thus, it is advised in the larger interest of the public that none should be fleeced by the saying of unscrupulous persons, as nobody would be influencing the result and whoever candidate or the person concerned comes under the influence of such unscrupulous allurements, shall be responsible at his/her own for such act and conduct.
