Sr . no	Name of the candidates	Speciality	Topic of the Thesis
1.	Dr. Jastinder Singh	MDS (Conservative Dentistry)	Comparative evaluation of the antimicrobial efficacy of 5% sodium hypochlorite, subsonic activated solution and diode laser in elimination of enterococcus faecalis from the root canal: An in vitro study.
2.	Dr. Roma	MDS (Conservative Dentistry)	Efficacy of three rotary Ni-Ti systems and hand files in removal of gutta percha and sealer from root canal - An in vitro study.
3.	Dr. Swati Takkar	MDS (Orthodontics)	Role of Mandibular Advancement in Correction of Obstructive Sleep Apnea – A Clinical Study.
4.	Dr. Vivek Bansal	MDS (Orthodontics)	Comparison of Rate of Retraction of Canine and Anchorage loss with T-loop and mushroom loop: A Clinical study.
5.	Dr. Surabhi Khungar	MDS (Prosthodontics)	A Comparative evaluation of fracture resistance of endodontically treated teeth restored with different post - core systems: An in - vitro study.
6.	Dr. Pulkit Sudan	MDS (Prosthodontics)	Comparative Evaluation of dimensional stability and accuracy of different elastomeric materials: An in-vitro study.
7.	Dr. Arun Kumar	MDS (Pedodontia)	Clinical Evaluation of four different types of post systems in restoring primary anterior teeth – An in vivo study.
8.	Dr. Parvesh Bhuria	Pedodontia	Comparative evaluation of diffusion hypoxia and psychomotor skills with and without post sedation oxygenation following administration of nitrous oxide in children undergoing dental procedures – A clinical study.
9.	Dr. Preetinder Kaur	Oral Pathology & Microbiology,	Immunohistochemical Expression of Ki-67, Egfr and survivin in epithelial odontogenic lesions.
10.	Dr. Shivani Garg	Oral Pathology & Microbiology,	Immunohistochemical Expression of p53, EGFR and Bcl-2 in Oral Carcinogenesis.
11.	Dr. Vishal Kakar	Periodontology	Comparison of periodontal flap surgery with Non surgical therapy using tetracycline fibres in the treatment of moderate to deep periodontal pockets: A clinical study.
12.	Dr. Chandni	Periodontology	Comparison of Combination of amnion membrane & bone graft with bone graft alone in the treatment of periodontal intrabony defects- A Clinical and radiological study.
13.	Dr. Gurkirat Kaur Sandhu	Periodontology	Comparative Evaluation of Stress levels before, during and after periodontal surgical procedures with nitrous oxide-oxygen inhalation sedation combined with local anesthesia and that with local anesthesia alone.
