Social media has become all pervasive today- especially among the youth. More and more young people are joining various social media networks for various reasons. These networks include Facebook, Twitter, Instagram, Whatsapp, Youtube, Tumbler, Pinterest etc: It's became common to see children as young as ten and twelve run their own social media accounts. From pictures of pets to updates on family and personal lives, gossip, games, serious debate and work – almost everything young people do is updated on one or the other platform. These platforms are also used to connect with friends and acquaintances, to widen the social circle, gain popularity and engage with current issues.

In our country, social media platforms cater to a variety of Indian languages. People from different social classes have gained access to these networks. People from all corners of the world can share content and information because of these platforms. The world has been reduced to a small village.

- (i) Give a suitable title to the passage.
 - (ii) Name any five social media networks that are popular among youth.
 - (iii) What can the social media platforms be used for?
 - (iv) Whom do the social media platforms cater to in India?
